

SUDAN

Project No: 2017-SDNTRADE-376

Project Title: Strengthening Institutional Capacity for Single Window Systems in the OIC Member States

Project Owner: Ministry of Trade of Sudan

Project Partners: Turkey, Morocco, Uganda and Jordan

Cooperation Area: Trade

Implementation Year: 2018

Project Purpose: The project falls under one of the policy recommendations of COMCEC, namely “Developing integrated strategies of single window systems”. It was designed to seek ways to electronically exchange relevant information through the integrated single window systems of OIC countries. The project facilitated the experience sharing among partner countries on the implementation of national trade facilitation programs along with the promotion and the development of electronic single windows.

Project Activities:

- Study visit to observe implementation of an already established single window system
- Training to build capacity and share experiences on single window systems
