

TURKEY

Project No: 2017-TURAGRIC-436

Project Title: Improving Agricultural Irrigation Extension Services

Project Owner: Ministry of Agriculture and Forestry of Turkey

Project Partners: Morocco, Tunisia, Palestine

Cooperation Area: Agriculture

Implementation Year: 2018

Project Purpose: One of the expected outcomes of the COMCEC Strategy is improved irrigation opportunities and adoption of efficient techniques in agriculture sector. In line with this, the project aimed at improving the capacity of the partner countries on agricultural irrigation by increasing knowledge and experience of technical staff who work in agricultural irrigation extension and training services.

Project Activities:

- Study visits for investigating current situation and good practices on agricultural irrigation
- Workshop on difficulties and opportunities for improving the irrigation extension services
- Training on innovative approaches for the effective use of limited water resources
