

REPUBLIC OF TURKEY

Project No: CCR-2020-TURAG-14

Project Title	:	Acceleration of Transformation of Digitalization in Agriculture Sector for Ensuring Sustainable Food Security
Project Owner	:	Ministry of Agriculture and Forestry
Project Type	:	Needs Assessment
Cooperation Area	:	Agriculture
Implementation Year	:	2021
Project Summary	:	Within the scope of the needs assessment project, which focuses on accelerating the digital transformation in the agricultural sector in order to ensure sustainable food safety, a roadmap will be prepared for all stakeholders in the agriculture sector in Turkey, especially in order to minimize the risks (loss of production, loss of labor, fluctuations in prices, export and import restrictions, change in customer behavior, etc.) brought by COVID-19. In this context, a report will be prepared by using methods such as literature review, local site visit, and survey.
