

BENIN

Project No: 2022-BENTRANS-009

Project Title: Implementation of a Mechanism for Renewing the Fleet of Road Transport Vehicles in Benin

Project Owner: Ministry of Infrastructure and Transport

Project Partners: Burkina Faso

Cooperation Area: Transport and Communication

Implementation Year: 2023

Project Purpose: The project aims to improve the performance of road freight transport services in Benin by emphasizing the renewal of transport vehicles. The implementation of this project will raise awareness among road freight transport stakeholders in Benin on the benefits of an effective vehicle fleet renewal mechanism to improve the performance of road freight transport services.

Project Activities:

- Training on “the mechanism for renewing the vehicle Fleet”.
- Study Visit on “the renewal mechanism of the heavy vehicle of goods transport fleet in Burkina Faso”.
